Biography

Hello, my name is Tucker. I have lived in Sandy and Draper my whole life and have been programming with Java since I was 11! I enjoy listening to music, reading, going on walks, and playing video games. Programming is something I do as well, although I tend to have a love-hate relationship with it.

Education

- Alta High School
- MountainLand Technical College
- SLCC

Projects

My only public project is a mod I made for Minecraft: [Click Here](#)
I have been working on another, more advanced one, which I will publish soon.
